The change that has come over the spirit of our dreams in this respect has, we presume, been wisely undered. Most people find little to interest them in a long line of pens filled with fat and sieck cattle, obese porkers and fine wooled sheep. They want to see something with which their eyes are not so familiar; something new, which they are capable, from association and education, of passing judgment upon. In this the Exposition supplies the deficiency and fills a long felt want without at all disparaging the agreements of the delight of all whom it may concern.

Mr. Edmunds said that while on the way to and from Cleveland last week, himself and Mr. Anthony had conferred with Mr. Pendleton, Chairman of the Democratic cancus, and Mr. Garland, relative to the organization of the Senate, and that it had been agreed that a full interchange of views should be had on the Saturday preceding the neeting of the Senate. Mr. Edmunds informed the caucus that the gentlemen who participated in the informal conference at that time expressly stipulsted that neither themselves nor their associates should in any way be bound to do anything, but the importance of reaching some understanding was so grave that, if possible, a conference should be arranged. There was some objection in the caucus to a committee of conjection in the caucus to a committee of con-ference, a few Republican Senators Insist-ing that it would be unbecoming in them ing that it would be unbecoming in them to ask the majority to confer on the subject of the election of a President pro tem. The failure of the Government o remit this sum, it is stated, is one of the causes of the suspension. Mr. Hunt is connected with and largely interested in prominent coal and fron interests in Ohio, being President of the Hocking Valley Iron Company, and heavy drafts upon him from these industries was the cause of the embarrassment. Hunt has been for the past six years President of the Atlas National Bank of this city, President of the Forbes Lithograph Manufacturing Company, also in the Manufacturers' Insurance Company, and one of the largest pany, also in the Manufacturers' Insurance Company, and one of the largest owners and directors in the Boston Lead Manufacturing Company, besides having large interests in other enterprices. The liabilities of the company and Hunt, outside of the mottgage indebtedners on the property, will argicipate in the neighborhood of \$300,000, the greater portion of which is the company's debt, as fund's unsecured personal debts are said to be merely nominal. The company and Hunt represent property which at the lowest valuation would realize more than double the amount of all the claims against them, and this is outside of the money due the company by the Government. The beggage car was thrown off on the other side of the track. The smoking car was derailed, as was the forward end of the ladies' car. The engine was so broken that steam and hot water poured out, adding to the excitement of the occasion. The traimmen and pasengers came to the help of the engineer, and by digging from under him, and lifting on the tender and tank, released him. At first they supposed him to be dead; but he revived so as to return hone on the noon train. The car containing the Marquis of Lorne and party, being the last of the train, was little disturbed by the accident. His grace came forward to the wreck just as the tender was being lifted off the engineer. He returned to the cars, and the ear being heavy, shoved the train alread, otherwise the accident might have been averted.

GLADSTONE'S SPEECHES AT LEED

be Secure So Long as America Adheren to Protection - Nihilistic Troubles in Russia - General Foreign No.

LONDON, October 8 .- Gladstone, before day said: "So long as America adheres the slightest on that score. Compared with America and Germany, we have now,

man for man, thrice the amount o' tri they have." LEEDS, October 8.-A monster meeting was held this afternoon, at which Gladstone again spoke. He reviewed the foreign policy of the Government. He congratulated the Liberal party on the results garding Montenegro and Greece. He so-verely condemned the invasion of Afghan-

istan, the only result of which, he said, was to convert the Afghans from friends to enemies, and thus break down the moral barrier between India and Russia. He rejoiced to say the troops had been almost completely withdrawn, thereby effacing ome of the most unfortunate and scandal

some of the most unfortunate and scandalous recollections written in our history. He said. "The joint action established by France and England in Egypt, is a course which opens out many difficulties and objections of which we now begin to experience the risks, but I am happy to say Anglo-French intervention has been beneficial, both to Egyptian finances and to the condition of the peasants. Our policy in Egypt will be guided by this consideration, namely, to act in strict concert with the allied and friendly government of France. I have no doubt we shall be able to maintain perfectly united action. I shall endeavor to prevent the growth of difficulties between Egypt and the Sultan. Except in case of unforseen necessity we shall not seek to extend the limits of our interference."

Government regarding Transvaal, and said:
"In spite of expectations the Volksraad has non yet ratified the liberal conditions of the convention. We have been invited to the convention. We have been invited to reopen negotiations. It is possible that in some minor points the conditions might be modified. The concessions we made were not due to weakness or timidity. I do not know what is going to happen. I hope the convention will shortly be ratified. But this I will say: We shall remember and faithfully maintain the interests of the numerous sative reputations of the Treatment. merous native populations of the Transvaal and no less faithfully maintain the dignity
